App & Extension Risk Assessment

Recommended by

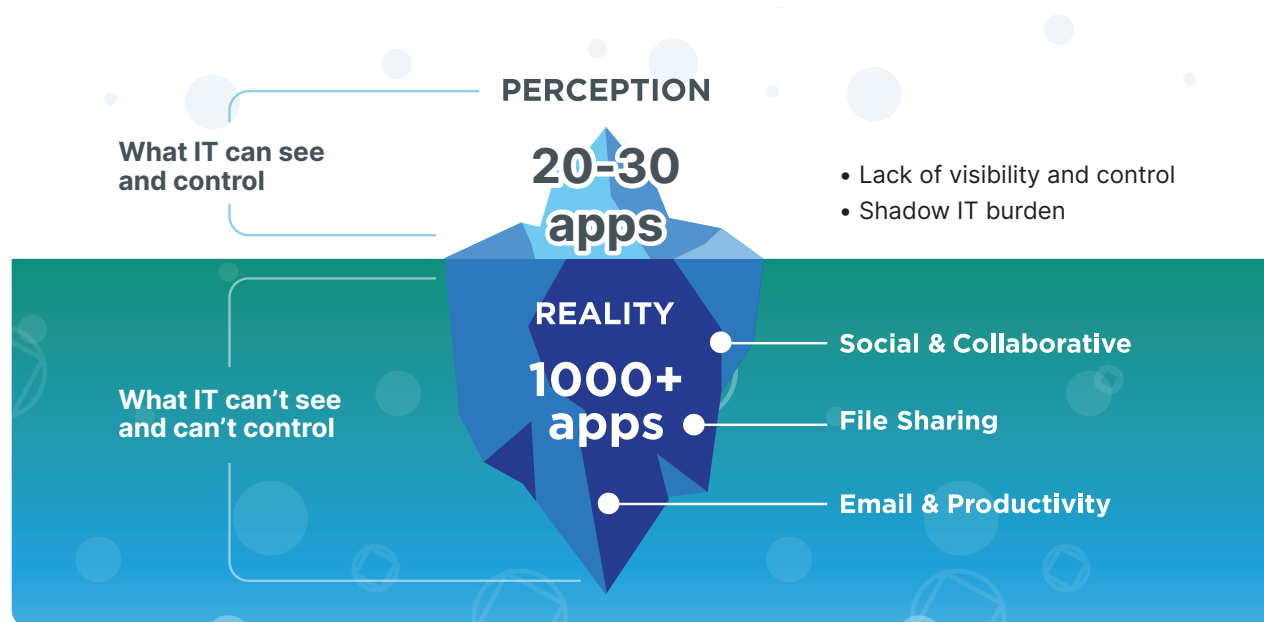

Google Workspace

Identify unsanctioned SaaS apps, mobile apps, cloud apps, or browser extensions that have access to your mission-critical SaaS data, and assess risk to reduce security, compliance and data leak/loss risks.

Challenge

How do organizations manage access for apps or browser extensions that have access to business critical SaaS data?

A perceived 20-30 apps on the surface can, in reality, be thousands of unsanctioned apps and browser extensions with dangerous access levels. SecOps teams can't control what they can't see. Any lack of visibility leaves your critical SaaS data vulnerable to potentially devastating security, compliance, and data loss risks.

Solution

Get full visibility and control to over 320,000 Apps and Browser Extensions assessed by our AI-algorithms.

Key Capabilities

**Shadow IT Discovery
with 320,000+ Apps &
Extensions Assessed
by Our AI-Algorithms**

**Full Visibility of All Third-party
Apps in Your Google Workspace
or M365 Environment in
One Dashboard**

**Automatically Assess Business,
Security, & Compliance Risks**

**Conduct Permissions, User,
& Compliance Audits**

**Automated & Continuous 24/7
Risk Assessment & History**

**Misconfiguration
Detection & Response**

**Implement Allowlist/Blocklist
Using Configurable Automated
Policies & Customized Alerts**

**Integration with Splunk,
ServiceNow, Jira,
Slack, & DataDog**

**Implement & Manage Robust
Security Policies**

**Evaluate & Track the Risk
Levels of Each App Over Time**

Fast Incident Response

**Generate Detailed Insights
with Advanced Reporting Tools**

Integration with Google Workspace

SpinOne was selected by Google to be integrated into the Google Workspace Console to assess the risk of sanctioned and unsanctioned Chrome browser extensions.

Customer Use Case

Global Automobile Manufacturer Secures Digital Workspace with SpinOne

SpinOne helped a top 3 global automaker to detect and assess risk for 10,000 apps in 2 months whereas before SpinOne it would have taken them 2 years.
